At the heart of this captivating story lies Andreas Papandreou, a charismatic and controversial Greek politician who served as Prime Minister of Greece from 1981 to 1989 and 1993 to 1996. Papandreou's enigmatic personality and unwavering commitment to socialism made him

a polarizing figure both at home and abroad. However, beyond his public persona, Papandreou led a double life, secretly collaborating with two clandestine organizations: the Anti-Dictatorial Struggle Trust (ADST) and the Defense and Cooperation Organization of the Resistance (DACOR).

ADST, established in 1967 after the military coup in Greece, was a covert organization dedicated to resisting the dictatorship and promoting democracy. DACOR, founded in 1974 during the Turkish invasion of Cyprus, played a crucial role in coordinating defense efforts and providing logistical support to the resistance movement. Papandreou's involvement in these organizations gave him unparalleled access to intelligence and enabled him to exert significant influence on the geopolitical landscape of the time.

The book delves into the intricate network of diplomats who served as intermediaries between ADST, DACOR, and various international actors, including the United States, the Soviet Union, and other European nations. These diplomats, often operating under the veil of secrecy, played a pivotal role in facilitating communication, brokering deals, and advancing the interests of their respective organizations.

Through meticulous research and exclusive interviews, the author paints a vivid picture of the espionage and counter-espionage activities that characterized the Cold War era. The book exposes the intricate dance between intelligence agencies, covert operations, and diplomatic negotiations, showcasing the high-stakes game of international power politics.
